

# MD KAMRUZZAMAN

## SOFTWARE ENGINEER

### PROFILE

Experienced Full-Stack Developer with over 10+ years in software engineering, specializing in backend development with Laravel, Golang, and Python, as well as frontend technologies like ReactJS and NextJS. Proficient in crafting robust, scalable web solutions and custom plugins/themes across popular platforms like WordPress and PrestaShop. Skilled in designing and optimizing API-driven architectures, implementing security best practices, and collaborating with cross-functional teams to deliver high-performance applications. Adept in blockchain development, including smart contracts for Ethereum and Solana, with a passion for staying ahead of industry trends and driving impactful solutions.

### WORK EXPERIENCE

#### codemen.org

JUNE, 21 - PRESENT

##### Sr. Software Engineer

- Developed and optimized microservices and backend applications using Golang, improving system performance and scalability.
- Led architectural planning and implementation of Go-based services, increasing application efficiency and reducing latency.
- Collaborated with cross-functional teams to design, build, and maintain RESTful APIs and gRPC endpoints in a microservices environment.
- Conducted code reviews and mentored junior developers, improving team efficiency and code quality.
- Optimized database queries and data structures for improved response times and reduced server load.
- Integrated security best practices in Golang applications to ensure
- Optimized existing services for performance, scalability, and efficiency

Pulerhat, Jashore, Khulna  
Bangladesh-7400

### EDUCATION

2011-2015

ADUST UNIVERSITY

- Bachelor of Science IN CSE

2007-2011

JASSORE POLYTECHNIC

- Diploma In CSE

### SKILLS

- GoLang
- Laravel
- PHP
- JAVASCRIPT
- REACTJS
- NEXTJS
- NESTJS
- MySQL
- PostgreSQL
- Neptune, Neo4J(Cypher Query, Gremlin Query )
- Git
- Docker

### LANGUAGES

- Bangla
- English
